This document includes all our "a la carte" Styling inventory for our REAL flowers for HIRE range which we also use for fresh blooms.

We have put together some curated looks that are tried and proven to look fabulous for your reception.

## Gold Look

Regardless if you chose a round or long table format for the reception- we have the perfect match of gold styling for all reception formats and tiers. From vases, vessels, stands, and candle ware.

## Timeless Look- Silver and clear

Silver and glass will never go out of style, it makes the reception look clean and airy, paired with our newest classical range, you will achieve a timeless look.

## Rustic

Regardless if round or long tables- We have the perfect elements to make the decor feel casual and relaxed by incorporating a classical look with some rustic elements, like wooden planks, rustic logs or slices.

## Pink and blush

Pink vases, cheesecloth runners and even pink taper candles all give that subtle but gorgeous pop of colour. You can pair it down with our Lux glamour or classical range and pink it up using the pink florals also.
