All our packages do not include GST

Delivery

Please refer to Page 3 for more details on this .

Rain and wet weather

In the circumstance that it is forecast to rain on your event date you MUST move indoors.

The flowers and foliage are humidity sensitive and will damage when used in moist environments. You will be liable for replacement costs. There will be circumstances that might be considered an exemption, please contact us to discuss.

Do you deliver, set up and then come collect everything again?

Yes, we do all the above, to make your day as stress free as possible. On top of that you will get advise and suggestions on how to best decorate your event and venue from our highly experienced team.

What happens if anything gets damaged or broken or goes missing?

Our REAL Flower for HIRE ranges are not as fragile as they look! They are made mainly with preserved material that is not brittle, however care must be taken for wearable items such as bouquets in order to not bruise or damage the materials. For example, throwing of the bridal bouquet is NOT allowed.

The contract that you will receive as part of your booking sets out replacement costs for each individual items. We advise our clients to instruct the event venues, coordinators or staff to stop guests walking out with flowers, but in the event that someone decides to help themselves to the centrepieces or other HIRE décor, you will be given a leniency of 24 hours to located the items and return them to Flower Nation. If inapplicable, you will be invoiced with the replacement cost as per contract. Depending on the severity of the damage to the hire item the repair or replacement value will be invoiced.

Extra Tables

Not a problem, we can usually come up with alternative HIRE designs to suit your number of tables.

Changes or additions

Not a problem, all our packages are more of a price-guide and made up of the items/styling costs added up. We can switch and change to what you are wanting/needng for your special day.

Advice

TOP tip: we usually recommend mixing two variations of centrepieces.

Not only does this maximise your flower-value as we can utilise the smaller pieces in the ceremony also, but it gives a more interesting reception look overall.
